MEASUREMENT PARAMETERS

Toe	±20°	**Maximum Steering Angle**	±35°
Camber	±10°	**Wheelbase**	1.940 ~ 4.600 mm
Caster	±20°	**Track Width**	1.290 ~ 1.900 mm
Kingpin Inclination	±20°	**Wheel Diameter (with 4-Point Clamping Bracket)**	470 ~ 1.100 mm

BASIC SCOPE

HARDWARE
(2 x) Measuring Units (right/left)

MOUNTING
(4 x) 4-Point Clamping Brackets incl. Targets
(1 x) Steering Wheel Lock
(1 x) Brake Pedal Lock

ACCESSORIES
(1 x) Transport Case
(2 x) Wall Mounts for 4-Point Clamping Brackets
(2 x) Wall Mounts for Measuring Units
(1 x) Power Adapter
(1 x) Power Cable (EU)
(1 x) Screen Cleaning Cloth
(4 x) Positioning Stickers
(1 x) Quick Start Guide

OPTIONAL
(4 x) 3-Point Clamping Brackets
(2 x) Wall Mounts for 3-Point Clamping Brackets

PACKAGE I

BASIC SCOPE +

X- 613 WIRELESS 3D WHEEL ALIGNMENT

– WHERE PRECISION MEETS EFFICIENCY

The X-613 combines state-of-the-art wireless measurement technology with an intuitive tablet interface – delivering a new level of user-friendliness and speed. In under two minutes, the system provides accurate readings for toe, camber, and caster, displays them live, and allows you to generate professional PDF reports at the touch of a button.

Thanks to its compact design, the X-613 can be used flexibly on nearly all scissor and 4-post lifts. The specially alloyed magnesium clamps offer exceptionally low weight and maximum durability – ideal for daily use in demanding workshop environments.

With a comprehensive vehicle database covering over 50,000 models, the X-613 is ready to go right out of the box – and prepared for almost any vehicle that enters your workshop.

Perfect for workshops that demand speed, maximum flexibility, and uncompromising precision.

REDUCE MINUTES. INCREASE REVENUE.

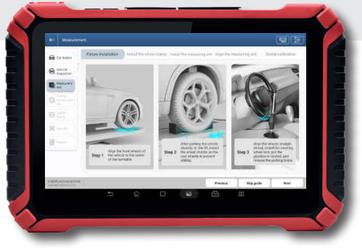
CUSTOMER SERVICE
- ✓ Reduce Waiting Times
- ✓ Accurate First-Time Results
- ✓ Report Sent Instantly via Email

PRODUCTIVITY
- ✓ Up to 3 More Checks per Day
- ✓ 10 Minutes Faster per Vehicle
- ✓ PDF Report with One Click

EFFICIENCY
- ✓ Amortisation in Less Than 12 Months
- ✓ Higher Revenue per Hour of Lift Operation
- ✓ No Initial Calibration Required

SPACE & MOBILITY
- ✓ Saves 80% Floor Space
- ✓ System Fits in the Boot
- ✓ Plug & Play – Ready to Use Immediately

DIAGNOSTICS & WHEEL ALIGNMENT* IN ONE DEVICE.



The X-613 and X-431 EURO combine precise 3D wheel alignment and, when required, full vehicle diagnostics in a single tablet.
- Over 50,000 vehicle models
- Online updates & cloud-based reports
- No additional PC or monitor required

*Full vehicle diagnostics become available upon activation of separate diagnostic packages for the X-431 EURO.

WIRELESS MEASUREMENT

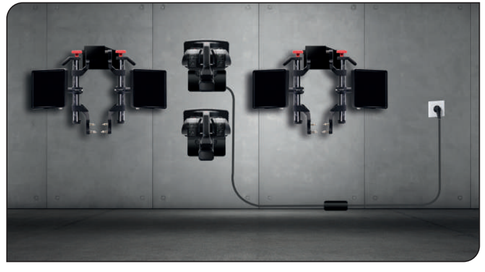
Magnetic measuring unit delivers live data – completely wireless.

4-POINT FIXING

Patented magnesium clamp – standard equipment.

USE ANYWHERE

Fits scissor lifts and 4-post lifts without modification.



TIDY STORAGE

Units and clamps hang securely on the wall and charge automatically.

MOBILE STORAGE

The complete system fits in the boot – ideal for on-site service.
